Digital cinema screens are increasing worldwide. Thus, film fans can enjoy pictures with sharp resolution and even higher quality. With the latest generation of XBO lamps, OSRAM – the market leader for cinema lamps – offers groundbreaking solutions for a great variety of digital projectors. The OSCAR®-winning XBO lamp was further developed for the new requirements of large screen and digital cinema and provides higher luminance while sustaining long life. OSRAM is the first manufacturer to include xenon lamps in projection lighting. With its wide range of XBO products, OSRAM is well prepared to support the new digital projection era.

*One trillion discharges a second – XBO® lamps provide high-resolution images and greater luminance.*
