

broadway puts life into your club lighting

**Specially designed to provide optimum light/life
balance, with universal burning position, 3100K
colour temperature and high efficiency**

PHILIPS

broadway disco lamps designed to provide spectacular performance, high reliability in tough club conditions

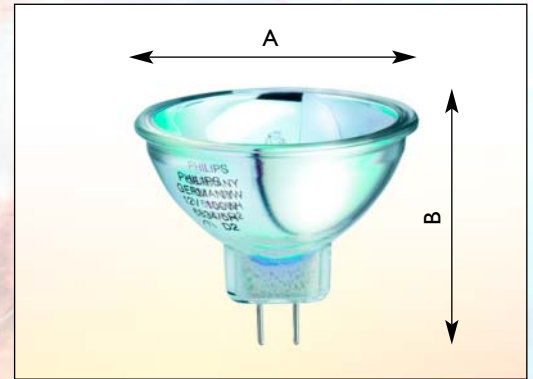

In a compact package, **broadway** Halogen Disco Lamps provide the ideal light for the most testing club/disco conditions. They give even light distribution across the entire beam, with the universal burning position allowing creative light use. At the same time, the Disco Range is practical and economical, offering high efficiency and the optimum balance of light output and long life.

Applications

- These lamps are especially suitable for Disco, moving beam Luminaires.

Features

- **Even crisp light distribution:**
no hot spots or shadows
- **Crisp white light:** 3100K
- **High output in luminaire:**
due to very compact filament
- **Long Life:** optimum choice in disco applications between light and life
